OBJECTIVE

Seeking an entry-level position to begin my career in a high level professional environment and the organization that provides an opportunity to utilize my technical skills & abilities and acquire new abilities.

SKILLS

- Programming Languages: Python,
- Web Development: HTML, CSS, Bootstrap
- Network Association: Cisco certified Network Association
- Adobe: Photoshop

PROJECT

WEB DASH-BOARD APPLICATION

Title: AI Based Spam Spoiler For Public And Private E-Mail Services

Description: In recent years, cyber security incidents have occurred frequently. However, the camouflage technology of spam mail is becoming more and more complex, and Existing detection methods are unable to cope with increasingly complex fraud patterns and the growing volume of e-mail.In this project, we proposed to design a novel efficient approach named Spam Spoiler for big e-mail data classification into four different classes: Normal, Fraudulent, Harassment, and Suspicious E-mails by using LSTM based GRU. Spam spoiler Effectively outperforms existing methods while maintaining classification process is robust and reliable.

LANGUAGES

Tamil, English

EDUCATION

| B.E Computer Science And Engineering |
Anna University, Stella Mary's College, Aruthenganvilai,
2019 – 2023
Percentage-77.6

| HSC |
Athithiya Matric Higher Secondary School, Ammandivilai,
2018 – 2019
Percentage-55.83

| SSLC |
Athithiya Matric Higher Secondary Schoo, Ammandivilai
2016 – 2017
Percentage-88.53

CERTIFICATES

2023
Python Full Stack Development
Aspire Dev, Nagercoil.

2022
Cisco Certified Network Associate - CCNA
Networkz System, Nagercoil.

INTERNSHIP

2023
Python Intern | I have done my internship at shiash info solutions private limited, Chennai on 2023 jul 17.

SUMMARY

- Proficient in Python Full Stack and web Development.
- Skilled in Network techniques with Resolving Networks, Softwares, services and OS issues.
